CUMULATIVE AUTHOR LISTING

ADDENDUM TO CUMULATIVE BIBLIOGRAPHY OF PHS RESEARCH GRANTS PROGRAMS, F.Y. 1961 - 1966

Research Documentation Section
Statistics and Analysis Branch
Division of Research Grants
National Institutes of Health
Bethesda, Md.

INTRODUCTION

This Cumulative Author Listing was prepared as an addendum to the Cumulative Bibliography of PHS Research Grants Programs, F.Y. 1961-1966, from data accumulated during this period in connection with the Research Grants Index (PHS Publication No. 925). (The Cumulative Bibliography is compiled into separate booklets according to each PHS Institute/Division, and each Institute/Division booklet contains its own author index.)

This Addendum lists names of principal investigators for the 30,717 PHS research grants which appeared in the past six annual issues of the Research Grants Index, excluding names of investigators who were awarded new grants in f.y. 1966 but had no publications as a result of such PHS support. In instances where a change of principal investigator was made during the project period, only the name of the most recent investigator is shown.

Extra copies of this Cumulative Author Listing Addendum, as well as of the individual Institute/Division Cumulative Bibliography booklets, are available in limited number from the Research Documentation Section, Statistics and Analysis Branch, Division of Research Grants, Room 3A-15, Westwood Building (ext. 67543).
